Dear Tony:

**RE: Waste Management: It s Everyone s Job**  
Video Production

The video you produced for our Regional Waste Management Centre project has received an excellent response from all those who have viewed it since mid-June.

Using the video to introduce the concept of regional waste management ensures that everyone, who attends our public information meetings, gets the same message. The use of a video was the only way we could ensure that the message was consistent.

We will be using the video extensively now until the end of the year at about a dozen public inofrmation meetings. We are also using it during informational meetings with our own staff members.

I enjoyed working with you in the production of this video. Your experience and professionalism was very evident during the time we worked together. I would recommend your company and you personally to anyone looking for a video producer.

Good luck in the future, I hope we have the opportunity to work together again.

Yours sincerely,
